### **Payment by bank card**

Shopping in our web shop is comfortable and secure through payment by bank card. After ordering the selected products we direct our clients to the K & H Bank's website where they can pay with their bank card through an encrypted transaction that is currently considered the safest. The customer only has to click on the "payment by bank card" button when choosing the payment method, and then he has to type in the card number, the expiration date and the 3-

digit security code of his bank card on the K&H Bank payment server. K&H Bank accepts VISA, VISA Electron, V-Pay, MasterCard, Maestro and JCB type bank cards. Bank cards authorized for electronic transactions only are accepted if the usage of the card is authorized for this purpose by the issuing bank. Customers are suggested that they should check with their bank whether a card can be used for internet shopping. K&H Bank will issue an authorization number for the transaction. The customer should write the number down, or print out the whole page. In case of an unsuccessful transaction, K&H Bank will send an error message and the cause of the failure.
